Contents of Volume 18
Section on Human Experimental Psychology

PERCEPTION & PERFORMANCE

SENSES

Effect of visualization and subvocalization on perceptual clarity by L. Standing, C. Sell, J. Boss, and R. N. Haber, 89

Effect of position and typeface variation on perceptual clarity by R. N. Haber, L. Standing, and J. Boss, 91

Effect of instructions upon a perspective illusion by W. R. Mackavey, 105

Expected scores in the rod-and-frame test revisited by G. M. Vaught, 111

Processing of spatial location and figural identity in a simulated reading task by R. L. Taylor, 113

Visually-evoked cortical responses and pattern vision in the infant: A longitudinal study by M. R. Harter and C. D. Suitt, 235

Differences between olfactory thresholds in two sleep states in the newborn infant by B. Murray and D. Campbell, 313

Figural aftereffect potency: A function of sex or field-dependence? by L. Immergluck, 317

Sequential blanking: A U-shaped function by J. L. Andreassi, M. S. Mayzner, D. Beyda, and J. Waxman, 319

Hand preference as a factor in the perception of lines displaced from the vertical by A. P. Giorgi and P. F. Colaizzi, 325

Visual dynamics of a novel apparent movement effect by M. S. Mayzner and M. E. Tresselt, 331

Lateral inhibition and the Wundt-Hering illusion by S. Coren, 341

An explanation of the effect of tilt on the Poggendorff illusion by A. W. Pressey, 347

PERFORMANCE

The effect of need of achievement and normative information on rotary pursuit behavior by J. F. Catalano and D. F. Berger, 69

Motivational properties of performance feedback by P. G. Swingle, 73

The correlation between amplitude and speed measures in children's lever-pulling behavior by G. N. Cantor and S. K. Kubose, 83

Choice response times as functions of inter-item similarity, anchor level, and stimulus type by B. Gholson and R. H. Hohle, 85

Assessment of spatial egocentrism through expectancy violation by C. U. Shantz and J. S. Watson, 93

Skin conductance, heart rate, and attention to the environment in two stressful situations by R. W. Buck, R. D. Parke, and M. Buck, 95

Pupil size and drug state in a reaction time task by J. L. Bradshaw, 112

Visual signal processing: A function of key difference-letter space location by M. E. Tresselt and B. Hugo, 118

Choice reaction time as a function of intersensory anticipation by C. Donaldson and A. E. Hall, 123

Interhemispheric transmission of information: Measurement in normal man by M. Moscovitch and J. Catlin, 211

Reaction to time-out and favorability of response alternatives by R. H. Willoughby, 217

Catecholamine excretion as a function of personality by H. Schulz and H. Strobach, 237

Instrumental responding to internal cues associated with REM sleep by J. Salamy, 342

ATTENTION AND SEARCH

Visual search through random walk number fields by R. J. Weber, P. Carlton, and W. Perry, 207

Selective attention to pure tones and speech by N. Moray and M. Fee, 223

Attention in infants as a function of magnitude of discrepancy and habituation rate by R. B. McCall and W. H. Melson (Vol. 17, pp. 317-318) Erratum, 322

Cardiac responses to attended and ignored stimuli by C. Clifton, Jr., R. K. Clifton, W. J. Meyers, and F. Miller, 361

The stimulus familiarization effect as a function of stimulus similarity by S. K. Kubose, 367

INFORMATION PROCESSING

The perception of information relevance by S. Streufert and S. C. Streufert, 199

A relative frequency principle in processing contingent information by R. G. Mills, 215

Prior probability variation in an information purchase task by C. R. Chapman and J. Halpern, 247

Confidence in decision as an index of perceived accuracy of information processing by R. D. Hoge, 351

HUMAN LEARNING & THINKING

REINFORCEMENT

A "partial reinforcement-extinction effect" in a perceptual-motor task by P. E. Black and R. W. Black, 125

The reinforcing value of secret information by R. F. Weiss and J. J. Weiss, 127

The intermittent punishment effect in humans: Conditioning or adaptation by R. D. Parke, J. L. Deur, and D. B. Sawin, 193

Modification of delay choices in institutionalized youthful offenders through social reinforcement by J. S. Stumphauzer, 222

Effects of the value of contingent self-administered and noncontingent externally imposed reward on children's behavioral productivity by R. M. Liebert, M. D. Spiegler, and W. M. Hall, 245

Negative incentive contrast effects with verbal reinforcement by L. Weinstein and V. M. Colucci, 318

Fixed-ratio reinforcement in verbal conditioning by L. P. Ince, 327

CONDITIONING

Escape and avoidance conditioning with omission of entertaining material as the aversive event by G. H. Moffat and F. D. Miller, 97

The relationship between avoidance and verbal conditioning by C. L. Richman, E. Riddle, G. Schneider, and P. Simmons, 99

Ivanov-Smolensky conditioning in adults and children using an electromyographic response measure by K. B. Solberg, T. E. Tyre, and G. M. Stinson, 365

DISCRIMINATION LEARNING

Subset prediction in multiple-response probability learning by R. B. Millward, 87

The role of cue novelty and dimension dominance in the discrimination shifts of retardates by L. W. Heal, R. T. George, and M. L. Bransky, 107

Effect of luminance in probability learning by J. G. Porter and H. L. Madison, 229

Right and wrong feedback in multiple probability learning as a determinant of subsequent performance by L. M. Schipper and B. Knerr, 251

Children's discrimination learning as a function of intertrial interval duration by W. L. Croll, 321

Vibrotactile code learning by young adolescent girls by D. D. Diespecker, 343

VERBAL LEARNING

Effect of R-pretraining on PAL with unlimited time for response by H. Barnes and E. Saltz, 81

Stimulus competition as a function of varying stimulus meaningfulness by R. L. Solso and E. S. Trafimow, 103

Structural facilitation in the learning of

XUM

German nonsense strings by D. C. O'Connell and M. Brand, 121
Photographs, drawings, and nouns as stimuli in paired-associate learning by F. W. Wicker, 205
Selection strategies and reversal-nonreversal shifts in verbal discrimination transfer by J. W. Deichmann, F. A. Minnigerode III, and D. H. Kausler, 209
Acoustic interference in paired-associate learning as a function of hearing ability by D. V. Allen, 231
The relationship of self-reported affect to performance in serial learning by M. Katahn, C. R. Snyder, and J. A. Durlak, 253
Correlation of stimulus and response dimensions in paired-associate learning by J. H. Mueller, 315
Relation between speed of learning and rate of forgetting in the elderly by J. C. Dixon, 334
Mediational styles: An individual difference variable in children's learning ability by R. L. Hohn and C. J. Martin, 348
Rapid shaping of fixed-interval verbal behavior by R. S. Davidson, Jr., 349
Inter-item manipulations of implicit associative responses in verbal-discrimination learning by N. J. Kanak, L. E. Cole, and J. W. Thornton, 359

MEMORY

Free recall of nouns presented in sentences by G. Wood, 76
Short-term memory: Effects of type of trigram isolated and position of isolation by R. S. Cimbalo and M. S. Mahoney, 77
Dream recall and content following various durations of sleep by J. M. Taub, 82
Subjective organization following constant input order in multitrial free recall by W. P. Wallace and G. W. Nappe, 115
Structure and short-term memory by W. A. Stock, 213
Individual differences in subjective organization: Short-term memory by M. Earhard, 220
The effects of relevant and irrelevant labels on short-term memory in nursery school children by E. S. Bush and L. B. Cohen, 228
Short-term memory encoding strategies of the deaf by J. L. Locke, 233
The effects of expected shock and expected payment on incidental retention by M. S. Pallak and J. Andrew, 323
Free recall and organization as functions of paced or unpaced responding and presentation rate by S. I. Shapiro and I. Ponce, 329
Reminiscence in recognition memory for faces by G. Wallace, M. Coltheart, and K. I. Forster, 335
Locus of interpolated activity and short-term memory by S. S. Wike, 340
Effects of meaningfulness and learning instructions on the isolation effect by D. E. Gibbons and K. L. Leicht, 353
'Trace strength,' modality, and the serial position curve in immediate memory by D. A. Routh, 355
Acoustic similarity and response measures in STM by L. D. Groninger and N. M. Henley, 363

VERBAL PROCESSES

The effects of anxiety and time upon productivity and vocabulary diversity in the absence of nonlexical feedback by J. N. Haney, 65
A note on the "Search after meaning": Sensibleness of paraphrases of well formed and malformed expressions by S. Fillenbaum, 67
Ordinal positions of letters within words as concepts: Effect of assigning identical responses to words sharing letters in various ordinal positions by D. L. Nelson, S. Bercov, and L. Leslie, 201
A new measure of semantic appraisal for studies of secondary rewards by K. K. Rileigh and J. C. Nunnally, 203
Generalization of an instrumental response between words and pictures by L. F. Petrinovich and C. D. Hardyck, 239
Development and persistence of acquired meaning in retarded and normal children by J. P. Das and A. C. Bower, 241
The verbal-loop hypothesis (VLH): A within-subject study with a perceptual recognition task by D. L. Sang and J. Ross, 345
Associative productivity as a function of creativity level and type of verbal stimulus by O. Desiderato and S. Sigal, 357

PROBLEM SOLVING AND CONCEPT FORMATION

The development of the concept of artistic style: A free classification study by J. A. Frechtling and P. W. Davidson, 79
Increasing the utility of negative instances in conjunctive concept identification by J. F. Brinley and R. J. Sardello, 101
Concept formation and utilization in the presence of irrelevant visual stimulation by E. M. Edmonds and M. R. Mueller, 109
Schema utilization in pattern perception by E. C. Jones and J. R. Holley, 197
Transfer effects of an observation stimulus as a function of its relevancy by S. H. Simon, 332
Heart rate, skin potential response, and latency of overt response, as indicators of problem recognition and solution by M. F. Elias, 337

SOCIAL PROCESSES

Intra-group similarity and the rejection of a deviate by J. Hewitt and D. McLaughlin, 71
Short-term temporal stability of interpersonal attraction by W. Griffitt and P. Nelson 119
Aggressive behavior as a function of approval motivation and physical attack by S. P. Taylor, 195
Attraction, test anxiety, and similarity-dissimilarity of test performance by P. A. Reagor and G. L. Clore, 219
Effects of extraneous fear arousal and birth order on attitude change by C. Hendrick and R. Borden, 225
Attitude similarity, interpersonal attraction, and evaluative social perception by R. E. Smith, B. L. Meadow, and T. K. Sisk, 226
No risky shift effect with real groups and real risks by D. E. Clement and D. W. Sullivan, 243
Subjective vs objective description of judgment policy by D. A. Summers, J. D. Taliaferro, and D. J. Fletcher, 249
Forming impressions of personality: The effect of the initial impression by M. F. Kaplan, 255

Contents
Section on Animal and Physiological Psychology

PHYSIOLOGICAL PSYCHOLOGY

ELECTRICAL RECORDING

A comparison of conditioned and unconditioned neuronal responses in the inferior colliculus of cats by E. S. Halas and J. V. Beardsley, 29

Changes in neuronal activity in the cochlear nucleus as a function of classical and instrumental conditioning by E. S. Halas and J. V. Beardsley, 161

Auditory system multi-unit activity and behavior in the rat by T. J. Imig and N. M. Weinberger, 164

The effect of habituation and conditioning trials on hippocampal EEG by F. J. Bremner, 181

BRAIN LESIONS

Effects of medial amygdalar and hypothalamic lesions on adaptation to a water deprivation schedule by E. R. Bauer, 3

Behavioral effects: Hippocampal destruction and scopolamine by E. Suits and R. L. Isaacson, 9

Extinction of active avoidance as a measure of passive avoidance in hippocampectomized rats by D. V. Coscina and L. Lash, 35

Cerebral lesions and the excretory alkali metal response (EAMR) in reptile by I. M. Spigel, A. Ramsay, and J.-A. Seggie, 59

Orienting response of kittens with lesions of the superior colliculus by T. S. Brown and G. Berkson, 153

Position reversal learning as affected by occipital, posterior thalamic, and rubral lesions in the white rat by B. M. Thorne and R. Thompson, 189

The caudate nucleus and active avoidance: A comment on the report of Winocur & Mills by R. J. Kirkby, 269

The caudate nucleus and active avoidance: Reply to Kirkby by G. Winocur and J. A. Mills, 270

The effect of hippocampectomy and prior experience in exploratory activity in the albino rat by J. S. Cohen and L. C. Swenson, 275

Fixed-ratio performance for sucrose under nondeprived conditions following septal lesions in rats by G. H. Buckland and J. S. Schwartzbaum, 271

RETROGRADE AMNESIA

Amnesic effects of heating in mice by J. Kane and M. E. Jarvik, 7

Amnesia from ECS: The effect of pairing ECS and footshock by J. L. Jamieson and D. J. Albert, 14

Hypoxia and retrograde amnesia by E. H. Galluscio and A. G. Young, 17

INTRACRANIAL STIMULATION

Spatial probability learning and brain stimulation in rats by R. N. Johnson, 33

Reinforcing limbic system stimulation and sodium amytal by L. D. Reid, R. E. Wasden, and R. J. Courtney, 47

Emotional responses in monkeys inhibited with electrical stimulation by R. Plotnik and J. M. R. Delgado, 129

Memory loss following posttrial electrical stimulation of the hippocampus by R. L. Brunner, R. R. Rossi, R. M. Stutz, and T. G. Roth, 159

Temporal patterns in the facilitation of Sidman avoidance by lateral hypothalamic stimulation by B. Carder, 170

Failure of ECS to produce retrograde amnesia following partial reinforcement training by A. G. Young and E. H. Galluscio, 175

Some effects of cerebellar stimulation by D. Asdourian and K. Frerichs, 261

DRUG EFFECTS

Role of drug effects and UCS intensity in avoidance acquisition of the Maudsley MNR and MR strains by L. K. Martin and B. J. Powell, 44

Lysergic acid diethylamide and a novel stimulus by E. T. Uyeno, 52

Morphine induced fighting and prior social experience by D. H. Thor, D. L. Hoats, and C. J. Thor, 137

Penicillin-induced epileptogenic foci in the rat cortex by M. Schuman and R. L. Isaacson, 185

Ambulatory behavior in the rat as a function of two methods of alcohol administration by Z. Amit and M. H. Stern, 273

Schedule-induced alcohol ingestion by P. B. Everett and R. A. King, 278

The effect of puromycin on classical conditioning in the goldfish by H. Huber and N. Longo, 279

The effects of long-term administration of caffeine on growth and activity in rats by T. Cox, 285

Effects of elymoclavine on wheel turning activity in mice by J. Harsh, W. L. Witters, and R. M. Yaremko, 301

Pentobarbital-induced state-dependent learning of one-way avoidance in mice by L. Browne, F. Judge, and P. Kasper-Pandi, 305

An effect of yeast RNA on behavior by D. Mountford and J. R. Heslip (Vol. 16, pp. 237-238)

Comment on "An effect of yeast RNA on behavior" by A. B. Davidson and L. Cook, 308

BIOCHEMICAL EFFECTS

Chemical transfer of learned fear: Failure to replicate Ungar by L. D. Hutt and L. Elliott, 57

The role of blood glucose in activity related self-starvation by G. F. Strutt and C. N. Stewart, 287

ANIMAL PSYCHOLOGY

An innate period of familial preferences in chicks not imprinted by P. H. Gray, S. J. Sallee, and A. T. Yates, 158

Differences in home-cage emergence in the rat in relation to infantile handling by D. I. Williams and P. A. Wells, 168

Vocal displays under water by the gray seal, the harbor seal, and the stellar sea lion by R. J. Schusterman, R. F. Balliet, and S. St. John 303

MOTIVATION

Retention of habituation of exploratory behavior by R. M. O'Brien and C. D. Corman, 23

Effects of potassium in steers on feed consumption and growth with and without the influences of gustatory and olfactory cues by V. V. E. St. Omer and W. K. Roberts, 41

Aspects of deprivation and allowance for growth in young rats by M. Taylor, 45

The effect of partial "quinine" reward on acquisition and extinction by P. T. P. Wong, J. Scull, and A. Amsel, 48

Variations in fluid intake following shifts between water and saccharin solution by V. DiLollo and P. N. Meyer, 55

Oral infusion and taste preference behavior in the white rat by W. B. Vance, 134

Sand digging of C-57 mice by W. E. Wilsoncroft, 150

The effects of blindness on bluegill, *Lepomis machrochirus*, activity by R. Schultz and M. Norberg, 180

SENSES

Nonvisual depth avoidance behavior of infant rats and mice by R. Lore and M. Landauer, 187

Discrimination of lithium and sodium chloride solutions by rats by C. Strom, A. Lingenfelter, and J. F. Brody, 290

CONDITIONING

Compound testing of individually conditioned stimuli as an index of excitatory and inhibitory properties by D. Reberg and A. H. Black (Vol. 17, pp. 30-31)
Erratum, 28

XUM

by P. R. Kleinginna, Jr., 53
Types of Pavlovian conditioning procedures used in establishing CS+ and their effect upon avoidance behavior by D. K. Kamano, 63
Situational cues and correlation between CS and US as determinants of the conditioned emotional response by C. S. Dweck and A. R. Wagner, 145
The assessment of excitation and inhibition by air puff elicited startle by P. F. Galvani, 259
Effects of delay conditioning and pseudoconditioning on heart rate and suppression of drinking by W. F. Caul and R. E. Miller, 284

DISCRIMINATION LEARNING

Behavioral contrast and inhibitive stimulus control by M. Yarczower, 1
Anomalous transfer effects following pattern discrimination training in the squirrel monkey by P. C. Dodwell, J. S. Litner, and R. R. Niemi, 5
Reversal learning improvement in the fish *Astronotus ocellatus* (Oscar) by L. H. Squier (Vol. 14, pp. 143-144)
Erratum, 28
The effects of non-differential reinforcement on two-cue discrimination learning by L. Andelman and N. S. Sutherland, 37
The ability of squirrel monkeys to solve randomly presented string problems by D. D. Fife and M. Kamback, 131
Synthesis of differential conditioning and double alley data: Performance to S+ as a function of intertrial interval and antedating reward events by P. A. Fox, R. S. Calef, J. R. Gavelek, and J. H. McHose, 141
Object orientation as a dimension of stimulus generalization by E. A. Lumsden, Jr., and M. R. Pullen, 149
Roughness discrimination with sandpaper surfaces: An olfactory confounding by S. Finger, G. P. Frommer, A. Carmon, and R. Inbal, 165
Responses of infant monkeys to pictorial representations of a learned visual discrimination by R. R. Zimmerman and J. Hochberg, 307

MAZE BEHAVIOR

Brightness and direction as cues for spontaneous alternation behavior by J. L. Pate and J. DeLoache, 27
Alternation of stimulus and response in three species by A. Neiberg, J. Dale, and D. Grainger, 183
Retention and interference in the beetle *Tenebrio molitor* by L. C. Walrath, 267

AVOIDANCE AND PUNISHMENT

Footshock responding on appetitive schedules: Aggression or discrimination? by H. Davis, 11
Effect of domestication on avoidance learning in the Norway rat by R. Boice, 13
Effect of visual cues on a 1-trial passive avoidance response by R. P. Gruber, 34
Time-dependent memory storage: An alternative interpretation of some data by R. M. Adams and W. H. Calhoun, 42
Extinction of free-operant avoidance behavior using a three-ply schedule by D. D. Burnstein, 139
Conditioned reinforcing vs punishing properties of electric shock by R. S. Davidson, Jr., 155
Variations in secondary reinforcers as a function of temporal relationship to UCS and UCS intensity by B. Mackay and H. Brady, 171
Escape behavior in neonatal rats by J. R. Misanin, Z. M. Nagy, and E. M. Weiss, 191
Instrumental aversive conditioning in the skink, *Eumeces inexpectatus*, studied with two test chambers by R. W. Powell and K. Peck, 263
The effect of flicker on avoidance acquisition in the bush baby, *Galago senegalensis* by J. P. Ward, R. S. Doerflein, and R. S. Riley, 265
Resistance to consistent shocks as a function of training schedules of interspersed shocks by M. Akhtar and T. Ahsan, 281
The effect of two extinction procedures after acquisition on a Sidman avoidance contingency by G. Coulson, V. Coulson, and L. Gardner, 309

REINFORCEMENT

A discrepancy between anticipated reward and obtained reward with no increase in resistance to extinction by E. J. Capaldi and E. D. Capaldi, 19
Maximizing the nonoccurrence of time-out as a function of FR requirement and time-out duration by J. S. Topping and B. K. Parker, 22
Behavioral contrast in multiple schedules with equal reinforcement rates by A. J. Brownstein and C. Newsom, 25
Different levels of performance with equivalent weights of reward by G. McCain (Vol. 14, pp. 2-3)
Erratum, 28
The effect of initial reward on the rate of reacquisition by I-N. Huang and H.-H. Huang, 39
The role of response suppression in behavioral contrast: Signaled reinforcement by A. J. Brownstein and R. G. Hughes, 50
Schedule control of concurrent fixed-ratio responding and discrimination acquisition in chickens by S. B. Sparber, 135
A within-session effect after prolonged training in probability learning by rats by C. P. Shimp, 152
Effects of varying probability of a response-pause requirement on a regular reinforcement baseline by W. N. Schoenfeld, J. Farmer, and C. Vickery, 177
Conditioned reinforcement of lever-pressing in rats by a brief stimulus and schedule of primary reinforcement by D. W. Zimmerman, 257
Number of training trials and frustration effects of nonzero reward reduction in the double alley by R. L. Patten and D. B. Myers, 291
Between- and within-subjects PRE in selective responding by R. L. Patten and R. S. Johnson, 293
The effect of satiation following partial reinforcement by R. B. Haas, F. M. Shessel, H. S. Willner, and R. A. Rescorla, 296
Predictability of schedule-induced drink durations by J. D. Keehn and V. A. Colotla, 297
Acquisition of responding on chained schedules: Gradual compared to abrupt introduction of the chain by L. R. Gollub and C. P. Vogt, 299
Transfer of persistence effects from frustration produced by blocking to frustration produced by nonreinforcement by H. Glazer and A. Amsel, 311
The PREE after minimal acquisition: Goalbox placement with single pellet reward by G. McCain, 313
A peak shift resulting from a chained reinforcement schedule by J. Frieman and D. R. Thomas, 315

EXTINCTION

Rapid extinction of conditioned reinforcement effects in the signaled absence of primary reinforcement by J. C. Birkimer and C. E. Aylworth, 31
Extinction and the necessity or non-necessity of anticipating reward on nonrewarded trials by E. J. Capaldi, D. R. Ziff, and R. C. Godbout, 61
A facilitating effect of latent extinction: Further evidence by E. C. Jones, D. Sytsma, and C. C. Bridges, Jr., 143
The effects of N-R transitions under extended training conditions on resistance to extinction by T. N. Tombaugh, 173

SOCIAL BEHAVIOR

On fighting in mice: Situational determinants of intragroup dyadic stimulation by R. B. Cairns and J. S. Nakelski, 16
Stimulus novelty as a factor in the intraspecific pain-associated aggression of domesticated rats by B. G. Galef, Jr., 21
Effects of induced aggression on a low fixed-ratio schedule of food

Operant conditioning in the indigo snake reinforcement by J. G. Hayes, M. F. Daley, and C. D. Cheney (Vol. 17, pp. 259-260)
Erratum, 144
Reinforcement of shock-induced fighting by P. I. Dreyer and R. M. Church, 147
Aggression and open field behavior in male mice by G. Whitney, 167

Contents of Volume 19
Section on Human Experimental Psychology

PERCEPTION & PERFORMANCE

Recovery functions of human cortical potentials evoked by tones, shocks, vibration, and flashes by D. B. Gjerdingen and R. Tomsic, 228

SENSES

Illusions, aftereffects and iconic memory by H. D. Ellis (Vol. 17, pp. 328-329) Erratum, 78

The reversal of classical contrast in temperature perception by H. E. Egeth, A. S. Kamlet, and R. A. Bell, 96

Age changes in the Poggendorff illusion as measured by a method of production by A. W. Pressey and O. Sweeney, 99

Visual backward masking and the area-detection relation by M. F. Sherrick and W. N. Dember, 127

Eye movements affect the perception of apparent (beta) movement by J. R. Pomerantz, 193

The effect of different psychophysical methods on visual orientation during tilt by N. J. Wade, 201

Pattern perception: A predictive variable based on discriminability and selective attention by C. M. Mavrides, 205

Relative loudness judgments of material presented dichotically by D. R. Davies and A. J. Chapman, 216

Changes in visual sensitivity associated with voluntary saccades by D. G. Pearce and E. Porter, 225

Eye movements and perceptual error: A developmental study by E. Mandes, 237

On the asymmetry of the phase-difference function in binocular flicker by M. C. Corballis, 247

Backward masking of visual targets with internal contours by S. I. Cox and W. N. Dember, 255

Factors affecting the processing of sequentially presented form parts by W. D. Shontz, 339

Comment on Cross and Cross's "The misperception of rotary motion" by R. P. Power, 341

Tachistoscopic recognition of geometric forms by children and adults by M. M. Haith, F. J. Morrison, and K. Sheingold, 345

Chromatic relationships to metacontrast suppression by W. Bevan, J. Jonides, and S. C. Collyer, 367

PERFORMANCE

Cardiovascular effects of paced respiration and selective attention by H. E. Fitzgerald and S. W. Porges, 65

EEG changes after 1, 4, and 7 days of sensory deprivation: A cross-sectional approach by J. P. Zubek, J. M. Shephard, and S. L. Milstein, 67

The relationship between aesthetic preference and visual complexity in abstract art by J. W. Osborne and F. H. Farley, 69

Transforming response measures to remove interactions or other sources of variance by R. S. Bogartz and J. H. Wackwitz, 87

Effects of acoustic rise time on heart-rate response by H. M. Hatton, W. K. Berg, and F. K. Graham, 101

Preparatory state effects in intersensory facilitation by I. H. Bernstein, R. Rose, and V. Ashe, 113

Children's stimulus selection as a function of auditory stimulus complexity by A. W. Duke and G. R. Gullickson, 119

Number averaging behavior: A primacy effect by C. Hendrick and A. F. Costantini, 121

Cardiovascular responses to auditory stimuli by F. B. Keefe and L. C. Johnson, 335

Cardiac orienting responses as a function of age by F. K. Graham, K. M. Berg, W. K. Berg, J. C. Jackson, H. M. Hatton, and S. R. Kantowitz, 363

ATTENTION

Selective attention: Superior detection of word targets compared with sound targets in a prose passage while shadowing another passage by J. M. Wilding and J. M. Farrell, 123

Instructions to ignore a stimulus and the GSR by R. J. Kohlenberg, 220

The effects of stimulus incongruity on the free looking time of adults and children by T. T. Faw, 355

Effects of familiarization with incongruous stimuli on their dominance in visual selection by T. T. Faw and J. C. Nunnally, 359

HUMAN LEARNING & THINKING

LEARNING

Reinforcement-test-blank acquisition programming under the unmixed-list design in paired-associate learning by C. Izawa, 75

The vividness of connotative adjectives and their paired-associate learning by E. P. Kirchner, 83

Delayed response learning in two-year-old children: Gradual vs sudden changes in the delay interval by P. Weisberg, 85

Heart rate as a minimal cue for the occurrence of conditioned vicarious automatic responses by D. F. Kravetz, 90

Overlearning of paired associates as a function of test and reinforced trials by P. S. Delin and J. H. Buxton, 91

Contiguity and reinforcement factors in multiple-choice verbal learning: Parametric influences by B. B. Lahey and W. S. Verplanck, 93

Dual process of serial learning by R. M. Schwartz, 214

Response latency as a function of list length in paired-associate learning by J. Ceraso, L. Bader, and M. Silverstein, 239

The effects of sentence length and grammatical structure in a serial learning task by H. B. Orenstein and D. A. Schumsky, 243

Presentation rates and verbal discrimination learning by S. S. Wike and E. L. Wike, 253

Serial pattern learning: Pretraining of runs and trills by F. Restle and E. R. Brown, 321

Age differences in perceptual learning on the Müller-Lyer illusion by J. R. Barclay and P. E. Comalli, Jr., 323

Interitem interval and total time in serial learning by J. M. Polt and K. Grieneeks, 329

Intralist stimulus similarity and facilitation of paired-associate learning by practice distribution by M. K. Dey, 351

A note on a "replication" of Rock's one-trial learning experiment by P. M. Wenderoth, 371

A reply to Wenderoth's comment by R. L. Breckenridge and E. W. Kooker, 372

REINFORCEMENT

Resistance to extinction as a function of sequence of events in partial reinforcement by L. S. Meyers and E. J. Capaldi, 199

Studies of children's probability learning behavior: VII. Effect of reward expectancy by S. I. Offenbach, 213

Fixed-interval frustrative nonreward in profound retardates by J. W. Libb, 219

Pleasant and unpleasant violations of expectancies by P. L. Shapiro and J. E. Singer, 251

MEMORY

Perception and memory for pictures: Single-trial learning of 2500 visual stimuli by L. Standing, J. Conezio, and R. N. Haber, 73

Recognition memory as influenced by differential attention to semantic and acoustic properties of words by G. Cermak, J. Schnorr, H. Buschke, and R. C. Atkinson, 79

A perceptual isolation effect in short-term

XUM

memory by W. E. Gumenik and F. Rossman, 98
Dimensional control of retardate memory by B. M. McBane and D. Zeaman, 104
The interaction of arousal and retention interval: Ipsative vs normative scoring by S. Kaplan and R. Kaplan, 115
The effect of type of redundancy on retention in preschool children by D. A. Corsini, 117
Running missing scan: Perception of oldest member in serial presentations by J. V. Hinrichs and H. Buschke, 125
The effect of a mnemonic device on retention of verbal material by J. R. Pash and K. A. Blick, 203
Recognition of faces in photographic negative by R. E. Galper, 207
The locus of forgetting of words and trigrams by S. L. Hackbarth and J. André, 209
The effect on word recall when storage and retrieval cues differ by R. L. Hudson and E. J. Reynolds, 211
Semantic and acoustic similarity and their effects on short-term retention by W. L. Johnson and C. M. Chamberlin, 217
Short-term association recall as a function of number and type of retention interval tasks by C. J. Scheirer and J. F. Voss, 223
Modifiability of the serial-position curve in immediate recall by J. Drevenstedt, 231
Effects of overt rehearsal procedures on free recall by I. Fischler, D. Rundus, and R. C. Atkinson, 249
Free recall by retarded and nonretarded subjects as a function of input organization by R. L. Simpson, J. D. King, and C. J. Drew, 334
A test of the spew hypothesis using intralist repetition and a free-recall task by S. S. Wike and E. L. Wike, 349
Bizarre images in artificial memory by G. G. Briggs, S. Hawkins, and H. F. Crovitz, 353
On predicting constrained associates from long-term memory by E. F. Loftus and J. L. Freedman, 357
The effect on retention of successive recall trials before unlearning by G. Lazar, 365
Intervening activity and the retention of meaningful verbal material by D. J. Dillon and T. F. Babor, 369

VERBAL PROCESSES

Rated acoustic (articulatory) similarity for word pairs varying in number and ordinal position of common letters by D. L. Nelson and L. D. Nelson, 81
Range of sequential constraint in monologue rhythms by J. Jaffe, S. Breskin, and L. J. Gerstman, 233
Meaningfulness in visual complexity by F. H. Farley, 234
Effects of syntax on running memory span for connected discourse by R. J. Jarvella, 236
Words functioning simultaneously as positive operant reinforcers and unconditioned stimuli by A. T. Abell, 325
Effectiveness of a verbal reinforcer subsequent to satiation in preschool children by H. Cook, 327
Knowledge of intraword redundancy by beginning readers by D. Lott and F. Smith, 343
Syntactic structure and natural language mediation by A. J. Wearing, C. B. Walker, and W. E. Montague, 348

PROBLEM SOLVING

Sex differences in problem solving as a function of content and order of presentation by S. Roll, 97
The relative effectiveness of positive and negative information feedback in a concept attainment task by L. S. Siegel and J. L. Downey, 105
Subject-controlled intertrial intervals in concept learning by H. Wells, 109
Effect of noncontingent "rights" and random reinforcements on concept identification as a function of the relevant dimension's cue value by E. R. Brown and C. T. Merryman, 197
Psychological reality of physical concepts by P. E. Johnson, D. L. Cox, and T. E. Curran, 245
Learning to learn as a factor in the transfer of stimulus predifferentiation by D. Muller, 317
A reexamination of the interpretations of errors in formal syllogistic reasoning by J. J. Roberge, 331
Effects of intelligence on the speed and frequency of problem solution in concept learning by L. I. Jacobson, J. Millham, and S. E. Berger, 337
Effects of knowledge of results on schematic concept formation with linguaform patterns by J. M. Glasgow and E. C. Jones, 347

SOCIAL PROCESSES

Perceived social dominance by W. Wilson and R. Lehr, 71
Attitudinal effects of mere exposure: A replication and extension by M. P. Janisse, 77
Real competence and conformity in a compound stimuli paired-associate learning situation by R. S. Sobel, 107
Source prestige and target reactions to threats by T. V. Bonoma, B. R. Schlenker, R. B. Smith, and J. T. Tedeschi, 111
Effects of programmed initial strategies in a prisoner's dilemma game by S. Oskamp, 195
Label effects in social interaction experiments by E. A. Hartman, 222
The effects of delayed judgmental similarity on evaluative attraction by G. F. Mascaro and J. A. Lopez, 229
Role of physical attractiveness in impression formation by A. G. Miller, 241
Reinforcement and prior information in the judgment of others' attitudes by T. M. Ostrom and J. H. Goldstein, 319
Rate of simple motor responding as a function of coaction, competition, and sex of the participants by D. W. Carment, 342
Social comparison, influence, and need achievement by P. L. Shapiro, 361

Contents

Section on Animal and Physiological Psychology

PHYSIOLOGICAL PSYCHOLOGY

Effects of neonatal testosterone on the acquisition of an active avoidance response in genotypically female rats by W. W. Beatty and P. A. Beatty, 315

BRAIN LESIONS

Specific hungers in hyperphagic rats by D. G. Mook and E. M. Blass, 34

Limbic lesions and cue utilization in the Dashiell maze by P. Ellen and G. Bate, 47

The effects of hippocampal-pyriform ablations on the acquisition and transfer of cues in successive discrimination by cats by A. A. Buerger, 179

Sucrose preference in rats following amygdaloid lesions by E. D. Kemble, J. T. Tapp, and R. S. Zimmerman, 271

BRAIN STIMULATION

Behavioral correlates of chemical stimulation in the cat thalamus by D. D. Avery and D. M. Nance, 7

Interpolation of electroconvulsive shock during CS-US interval as an impediment to the conditioning of taste aversion by P. A. Kral, 36

Approach and avoidance effects of central stimulation: An exploration of the pigeon fore- and midbrain by I. J. Goodman, 39

Acquisition and extinction of an instrumental response as a function of delay of intracranial stimulation reward and amount of training by S. E. Hendricks and A. A. Gerall, 187

Permanence of a long temporal gradient of retrograde amnesia induced by electroconvulsive shock by A. Geller, M. E. Jarvik, and F. Robustelli, 257

DRUG EFFECTS

Effects of chlordiazepoxide on the acquisition of shuttle avoidance in the rabbit by D. C. Chisholm and J. W. Moore, 21

Theophylline: Induction of self-biting in rabbits by L. L. Morgan, N. Schneiderman, and W. L. Nyhan, 37

Physostigmine: Effects on retention at different times after brief training by L. R. Squire, 49

Change in sensitivity to d-amphetamine in frontal rats as a function of time: Shifting of the dose-response curve by S. D. Glick, 57

The effects of nicotine administration in utero upon activity in the rat by J. C. Martin and R. F. Becker, 59

Stress-induced amnesia and potentiation by ether by S. D. Glick, R. K. Nakamura, and M. E. Jarvik, 259

Effects of methylphenidate on activity and reactions to novelty in rats by L. J. Dyne and R. N. Hughes, 267

The effect of alpha-methyl-para-tyrosine on sleep and arousal in the rat by M. Branchey and B. Kissin, 281

The effect of magnesium pemoline on discrimination learning and exploratory behavior by C. Knox and P. Gendreau, 295

BIOCHEMICAL CORRELATES

Effect of visual pattern restriction in early life on brain enzyme in the rat by D. Singh, R. J. Johnston, and H. J. Klosterman, 173

Extinction of the excretory alkali metal response (EAMR) to stress in a reptile by I. M. Spigel and A. Ramsay, 261

Effect of olfactory bulbectomy and enucleation on behavior of the mouse by D. Richardson and C. L. Scudder, 277

ANIMAL BEHAVIOR

Foot-thumping in the gerbil: The effect of establishing a home cage by C. Spatz and W. R. Granger, 53

Communal nursing in mice: Strain-specific effects of multiple mothers on growth and behavior by J. Werboff, M. Steg, and L. Barnes, 269

Drive and performance modification following shifts in the photoperiod by F. H. Rohles, Jr., 291

Food imprinting in domestic chicks as a function of social contact and number of companions by L. H. Frank and M. E. Meyer, 293

EMOTIONAL BEHAVIOR

Open-field behavior of C57BL/6J mice: Effect of illumination, age, and number of test days by Z. M. Nagy and H. D. Glaser, 143

The Maudsley strains: The evaluation of a possible artifact by D. A. Blizard, 145

Severe maternal separation and adult emotional reactivity in BALB/c mice by R. C. LaBarba and R. Hodge, 154

The effects of stimuli associated with shock onset or termination on restraint-induced gastric lesions by D. D. Fife, 163

Open-field behavior of C3H mice: Effect of early handling, field illumination, and age at testing by Z. M. Nagy and M. Holm, 273

Fear level and rats' open-field activity and defecation by P. P. Aitken, 275

MOTIVATION

The effects of visual loss on lizard, *Gerrhonotus multicarinatus*, activity by R. Schultz and M. Norberg, 10

Negative incentive contrast with sucrose by L. Weinstein, 13

Further study of "learned" activity in food-deprived rats by T. S. Allison, 17

The effect of the onset of stimuli on reactivity in the rat by J. T. Tapp, D. M. Mathewson, P. S. D'Encarnacao, and C. J. Long, 61

Correlates of food competition behavior by M. Manosevitz, C. I. Fitzsimmons, and T. R. McCanne, 141

Paradoxical sleep in the rat: Comparison of early and late blinding by A. M. Anch and D. I. Tepas, 155

Ethanol consumption by rats on a differential probability of reinforcement schedule by J. D. Keehn and G. E. Coulson, 283

Does food deprivation affect the role of taste in a two-choice preference test? I: Some considerations by R. L. Gentile and L. A. Hoff, 297

Does food deprivation affect the role of taste in a two-choice preference test? II: Some conclusions by R. L. Gentile and L. A. Hoff, 298

Reciprocal and additive effects of hyperoncotic and hypertonic treatments on feeding and drinking in rats by S. Hsiao, 303

Sodium deficiency and latent learning by R. S. Weisinger, S. C. Woods, and J. D. Skorupski, 307

Work rate with noncontingent supplement of the reward by P. R. Harley and A. E. Etaugh, 311

CONDITIONING

Effects of US intensity on heart rate in delay conditioning and pseudoconditioning by W. F. Caul, R. E. Miller, and J. H. Banks, Jr., 15

A magnitude analysis of differential classical, avoidance, and classical-avoidance eyelid conditioning in the monkey *(Cebus albifrons)* by M. A. Milan and H. S. Pennypacker, 151

Response availability and extinction of conditioned suppression by D. E. Jackson, 160

Differential heart-rate conditioning in the rabbit: Failure to find a specific pre-US response by R. A. Lockhart and D. C. Steinbrecher, 175

Avoidance conditioning in Limulus by G. S. Wasserman and D. G. Patton (Vol. 15, p. 143)

Conditioning in *Limulus:* Comment on Wasserman and Patton by W. Makous, 183

Reply to Makous by G. S. Wasserman, 184

XUM

DISCRIMINATION LEARNING

Response probabilities for individual stimuli in learning tasks by A. Nash, 5

Effect of drive level on habit strength in a discrimination task by J. S. Cohen and G. A. Telegdy, 27

Facilitation of brightness discrimination with postchoice tactual stimulation by D. E. Fleming and L. E. Rhodes, 30

Transfer of a diff[illegible]entiated operant by E. J. Rickert and K. K. Nishimoto, 41

Implications of the equivalence of mirror-image stimuli for object constancy by E. A. Lumsden, Jr., 55

Blocking the acquisition of control by an auditory stimulus with pretraining on brightness by C. G. Miles, 133

Discrimination conditioned suppression: Further effects of stimulus confounding by H. D. Cappell, B. Herring, and C. D. Webster, 147

Comparison of intra- vs extradimensional transfer of matching by rhesus monkeys by W. J. Jackson and G. V. Pegram, 162

Effects of intertrial (blackout) duration on response rate to a positive stimulus by S. E. Taus and E. Hearst, 265

Comparisons of SDR performance of gibbons and three species of New World monkeys on a spatial task by R. L. Gossette, 301

Oddity learning in the squirrel monkey by C. S. Noble and R. K. Thomas, Jr., 305

MAZE BEHAVIOR

Changes following asymptotic instrumental performance as a function of shifts in drive by S. G. McDonald, J. J. Porter, and H. L. Madison, 33

Effects of runway training on behavior in the T-maze by M. E. Shanab and J. W. Cotton, 129

Pre-exposure and stimulus: Effects of locale by D. Lester (Vol. 12, pp. 3-4)

Preexposure and locale: A comment by J. L. Pate, 137

Reply to Pate by D. Lester, 138

Training schedules and the E-effect on the acquisition of a two-turn task in a temporal circular maze by H. Mohay and Chia-Shong Chen, 158

Conspecific odors as cues for runway behavior in mice by S. F. Davis, 167

Effects of reinforcement on response alternation by W. S. Foster, S. F. Walker, and H. M. B. Hurwitz, 171

AVOIDANCE AND PUNISHMENT

Dual mechanisms in passive avoidance: I by R. J. Blanchard and D. C. Blanchard, 1

Dual mechanisms in passive avoidance: II by R. J. Blanchard and D. C. Blanchard, 3

Transituational control of avoidance responding by Pavlovian CSs by O. Desiderato, 11

Early environmental experience and avoidance learning in the rat by R. J. Kirkby, 29

Timeout and punishment of a single response within a short fixed-ratio schedule of food reinforcement by R. W. Richards and M. Rilling, 51

Operant and Pavlovian stimulus control of avoidance latencies in conditioned acceleration by D. Riess and J. Bath, 165

The redefinition of extinction applied to Sidman free-operant avoidance responding by D. G. Davenport, R. W. Coger, and N. J. Spector, 181

Shock intensity effects in shuttlebox conditioning of guinea pigs by R. G. Rabedeau and C. D. Webster, 185

Nontransient learned helplessness by M. E. P. Seligman and D. P. Groves, 191

The effect of delay of punishment on choice behavior by S. B. Fleishman, W. H. Tedford, Jr., and C. C. Perkins, Jr., 263

REINFORCEMENT

Acquisition of lever pressing in rats under DRL contingencies by G. Coulson, L. Gardner, and V. Coulson (Vol. 17, pp. 265-266)

Note on Coulson et al by E. F. Segal, 9

Reply to Segal by G. Coulson, L. Gardner, and V. Coulson, 9

Runway performance maintained by multiple rewards per trial by A. Cilluffo and R. W. Black, 19

Motivational effects of differential magnitudes of reinforcement by J. S. Topping, J. M. Cole, M. M. Matamoros, and C. H. Linenberger, 25

Discriminative effect of fixed-ratio feeder flash on DRL responding by J. S. Miller, T. A. McCullough, and D. M. Thompson, 45

Effects of changeover delay in concurrent schedules of reinforcement of key pecking by pigeons by A. J. Brownstein and R. L. Shull, 131

Maintenance of fixed-interval responding by conditioned reinforcement in multiple schedules by J. R. Thomas and C. Johanson, 135

Reward magnitude and instrumental responses: Consistent and partial reward by G. McCain, 139

Effect of d-length and magnitude of immediate reward and partial delay by J. A. Sgro, B. D. Moore, and J. R. Showalter, 157

An analysis of preschedule-change rates in a multiple variable-interval schedule by D. A. Gibson and J. B. Milby, Jr., 168

Negative S– contrast with minimally contingent large reward as a function of trial initiation procedure by D. R. Harris, I. Collerain, J. C. Wolf, and H. W. Ludvigson, 189

Sequential effects in cyclic-interval schedules by N. K. Innis and J. E. R. Staddon, 313

EXTINCTION

Resistance to extinction following discrimination and nondiscrimination training with intermittent reinforcement by J. H. McCroskery, 23

Food imprinting in the domestic chick: A reconsideration by M. E. Meyer and L. H. Frank, 43

Resistance to extinction as a function of acquisition and extinction schedules and type of measurement by E. H. Davidson and J. L. Walker, 63

Resistance to extinction in rats as a function of drive level and amount of training by J. H. Mueller and D. G. Davenport, 287

SOCIAL BEHAVIOR

Effect of competition on escape from noxious stimulation by L. W. Sutker, L. Gubler, Jr., and C. J. Wallace, 149

"Spontaneous" fighting and mouse-killing by rats by L. P. Baenninger and R. Baenninger, 161

Agonistic behavior in mice: Strain differences as a function of test illumination by T. W. Klein, J. Howard, and J. C. DeFries, 177

Postshock responding on appetitive schedules: Aggression or discrimination? by H. Davis (Vol. 18, pp. 11-12)

Appetitive or aggressive postshock responding?: A reply to Davis by K. M. Weiss, 280

Social competition in the Mongolian gerbil, *Meriones unguiculatus* by S. Wechkin and R. L. Reid, 285

Attack during differential reinforcement of a low rate of responding by J. F. Knutson and R. A. Kleinknecht, 289

Familiarity of target location as a factor in the shock-associated aggression of wild rats by B. G. Galef, Jr., 299

Social preference in the guinea pig as a function of social rearing conditions and age at separation from the mother by Z. M. Nagy and J. R. Misanin, 309

ACKOWLEDGEMENTS

The following served as consultants for Volume 20. We are grateful for their assistance.

Robert E. Adamson, *Florida Atlantic University*
Robert Ader, *University of Rochester*
Earl A. Alluisi, *University of Louisville*
Abram Amsel, *University of Texas, Austin*
Norman H. Anderson, *University of California, San Diego*
Douglas Anger, *Western Michigan University*
R. C. Atkinson, *Stanford University*
William F. Battig, *University of Colorado*
Leonard M. Berkowitz, *New York University*
Dalbir Bindra, *McGill University*
Roger W. Black, *University of South Carolina*
John G. Borkowski, *University of Notre Dame*
Lyle E. Bourne, Jr., *University of Colorado*
Weston A. Bousfield, *University of Connecticut*
Gordon Bower, *Stanford University*
Judson S. Brown, *University of Iowa*
Arnold H. Buss, *University of Texas, Austin*
E. John Capaldi, *Purdue University*
Peter L. Carlton, *Rutgers University*
Fogle C. Clark, *University of North Carolina*
John Corbit, *Brown University*
M. Ray Denny, *Michigan State University*
James A. Dinsmoor, *Indiana University*
S. M. Ebenholtz, *University of Wisconsin*
James P. Egan, *University of Texas, Austin*
Howard E. Egeth, *Johns Hopkins University*
H. C. Ellis, *University of New Mexico*
Edmund Fantino, *University of California, San Diego*
C. B. Ferster, *Institute for behavior Research, Silver Spring, Md.*
Donald J. Foss, *University of Texas, Austin*
John F. Fuller, *Jackson Memorial Laboratory*
Gordon G. Gallup, *Tulane University*
Wendell R. Garner, *Yale University*
Walter C. Gogel, *University of California, Santa Barbara*
Frances K. Graham, *University of Wisconsin Medical School*
Edward M. Gurowitz, *C. W. Pst College*
Laird W. Heal, *Peabody College*

Section on Human Experimental Psychology

PERCEPTION & PERFORMANCE

SENSES

Anticipatory fear and judgments of shock intensity by L. R. Franzini, 95

Expected scores in the rod-and-frame test: Critiquing a revisit by D. T. Johnson, C. W. Neville, Jr., and S. N. Workman, 100

The effect of experimentally altered cognitive appraisal on pain tolerance by R. W. J. Neufeld, 106

Visual threshold as a function of test area and caffeine administration by A. L. Diamond and R. E. Cole, 109

The interhemispheric transfer of movement aftereffects: A comparison between acallosal and normal subjects by N. F. Dixon and M. A. Jeeves, 201

Relative size as a cue to the relative distances of random stereogram images by P. Tolin, 212

The portable rod-and-frame test and the short-form embedded-figures test: A combined index of the field-dependence dimension by S. J. Gross and S. F. Moore, 213

The disinhibited effect in sequential blanking by M. S. Mayzner, 218

The generality of the "target-pointing effect" in prism adaptation by R. B. Welch and M. R. Abel, 226

A reversed Poggendorff illusion by A. W. Pressey and M. J. Dewar, 227

Cross hearing–air conduction or bone conduction by F. N. Martin and D. Blosser, 231

Varying amount of static visual noise and the Ansbacher effect by G. Stanley, 343

PERFORMANCE

Size of stimulus set and response latency in visual search by G. C. Stone and R. A. Solem, 88

Skin conductance and reaction time with and without knowledge of results by M. P. Cowles, 117

Reaction time in short-term recognition with digits and letters by J. H. Yio and J. L. Santa, 121

Stimulus variables in single-letter recognition by A. O. Dick, 195

Use of tone offset to facilitate reaction time to light onset by I. H. Bernstein and T. R. Eason, 209

Response requirements and performance in a visual vigilance task by M. J. Guralnick and K. G. Harvey, 215

Effects of magnitude of model's apparent pain on observer reaction time by R. A. Baron, 229

Effects of induced muscle tension upon the visual evoked potential and motor potential by J. L. Andreassi, M. S. Mayzner, D. R. Beyda, and S. Davidovics, 245

Hemisphere differences in response rates to visual stimuli by M. A. Jeeves and N. F. Dixon, 249

Negative evidence regarding energization effects of simple, unchanging stimulation by G. N. Cantor and T. G. Moeller, 351

Heart-rate and skin-conductance responding during three attention-direction tasks under distraction conditions by R. W. Buck, R. E. Miller, and W. F. Caul, 355

The effect of verbal and pictorial presentation on class-inclusion competence and performance by J. R. Jennings, 357

Relative discriminability of visually presented letter pairs using a same-different choice-reaction time task by D. E. Clement and J. S. Carpenter, 363

PSYCHOPHYSICS

Field independence and anchor effectiveness by J. A. Steger and E. Gorelik, 86

White noise, instructions, and two-flash fusion with two signal-detection procedures by M. E. Dorosh, J. E. Tong, and D. R. Boissonneault, 98

Average evoked potentials and the anchoring of pitch judgments by V. Sarris and M. Haider, 113

Response language and context effects by H. R. Schiffman, J. Goldstein, and R. Aroksaar, 127

GSR and the anchoring of pitch judgments by V. Sarris, B. Tews, and W. Schönpflug, 193

Simultaneous presentation of two event patterns in binary choice behavior by B. Gambino and J. L. Myers, 317

The effect of expected difficulty on psychophysical judgment by E. S. Geller, 325

The influence of texture density gradients on judgments of length by C. V. Newman, 333

Two-choice discrimination with alternating trial types by D. Cruse, B. Gambino, and J. L. Myers, 345

Weight judgment as a function of apparent density of objects by S. P. Harshfield and D. C. DeHardt, 365

HUMAN LEARNING & THINKING

The effects of state instructions and schedules of reinforcement on resistance to extinction by R. K. Parker, 233

Words functioning simultaneously as negative operant reinforcers and unconditioned stimuli by A. T. Abell, 254

LEARNING

Errors of retarded and nonretarded subjects by learning stage by C. J. Drew and W. R. Berard, 65

Learning the rules of categorized free recall by J. R. Gerow, 79

The effects of concept training on preschool children's oddity performance by K. L. Witte and V. C. Meek, 94

The effect of a coding cue on verbal discrimination learning by S. S. Wike and E. L. Wike, 107

Comparison of associative learning strategies by G. H. Bower and D. Winzenz, 119

History-related effects upon human escape responding: Are induction or extinction processes involved? by H. Weiner, 207

Verbal learning and retention by amnesic patients using partial information by L. Weiskrantz and E. K. Warrington, 210

The isolation effect and verbal discrimination learning by S. S. Wike and E. L. Wike, 217

Stimulus compounding vs social reinforcement in adult paired-associate learning by J. Hannon, M. Janke, and M. Davison, 239

Initial observations on the learning of connected discourse to complete mastery by D. J. King, 329

Instruction-dependent facilitation during a pretimeout stimulus in human subjects by R. E. Remington and K. T. Strongman, 348

MEMORY

Initial-recall grouping in free-recall learning by J. A. Robinson, 67

Unlearning as a function of the activity between AB and AC acquisition by G. Lazar and E. Weiss, 69

Ambivalent proaction following common label pretraining by M. E. Marshall, 71

Voluntary forgetting of a shared memory load by A. E. Gross, J. Barresi, and E. E. Smith, 73

Free vs uninhibited recall by W. A. Bousfield and S. R. Rosner, 75

The effects of form class on the free recall of contiguous items by L. A. Nelson and D. H. Kausler, 83

Cue saliency: A relevant variable in the utilization of a mnemonic structure by J. N. Haney and J. L. Bruning, 85

XUM

Short-term retention and similarity of word length by H. L. Hawkins and R. H. Shigley, 111
Absence of specific retroactive interference effects of acoustic similarity in short-term memory by J. J. Laverty and M. T. Turvey, 123
Progressive decay of the memory trace by D. McNicol, 196
The role of associative organization in free recall under five different presentation conditions by R. A. Foote and H. R. Pollio, 205
The repetition effect: A methodological consideration by R. J. Remington, 221
The influence of semantic and acoustic similarity on retention of short sentences by D. J. King and W. E. Forrester, 222
Effect of knowledge of set size on search termination in long-term memory by E. Winograd, 225
Similarity in short-term recall: A comparison of Type II operating characteristics and percent recalled by R. Weeks and L. Katz, 232
Proactive inhibition of initial items in short-term recall by T. W. Turnage, 236
Stimulus and response influences on recognition by P. H. Marshall, 238
Variable length consonant stimuli in a "Peterson & Peterson" short-term memory paradigm by B. J. Starr, G. J. Harris, and R. Aronoff, 243
Effects of degree of interpolated learning on the recall of first-list responses at two retention intervals by E. H. LeMay, 251
Effects of intralist activity on free-recall performance by D. S. Gorfein, 331
Effects of shifts in visual, semantic, and acoustic-semantic stimulus attributes in STM tasks by D. A. Brodie and L. G. Lippman, 335
The repeated use of mnemonic imagery by P. E. Morris and R. L. Reid, 337
The delineation and application of three mnemonic techniques by C. E. Boltwood and K. A. Blick, 339
Dissociate effects of ethyl alcohol by R. E. Tarter, 342
Stimulus meaningfulness and similarity, recall direction and rate of recall test by D. L. Nelson, J. Wheeler, and J. Engel, 346
Disruption of short-term memory in man following consumption of ethanol by R. S. Ryback, J. Weinert, and J. L. Fozard, 353
Symbolic and size shifts in short-term memory tasks by D. A. Brodie and L. G. Lippman, 361
The effect of intralist similarity on serial anticipation and free recall by R. R. Schmeck, 371

VERBAL PROCESSES

NLM strength and CVC-CVC response-time recall by H. I. Thorsheim, 101
A Markovian investigation of English language redundancy by K. B. Taylor, 199
Linguistic operations in the analysis of pairs of class-membership statements by W. J. Krossner, 219
Semantic satiation in paired associates by J. Goldman, 235
Effects of reducing the readability of the words in the Stroop Color-Word Test by W. E. Gumenik and R. Glass, 247
Bilinguals as linguistic mediators by G. R. Tucker and H. Gedalof, 369
The verb as the main determinant of sentence meaning by A. F. Healy and G. A. Miller, 372

PROBLEM SOLVING AND CONCEPT FORMATION

Some characteristics of hypothesis sampling in concept identification by J. R. Erickson, K. K. Block, and M. J. Rulon, 103
The size of focus samples in multiple-category concept identification by M. B. Reeve, P. G. Polson, and J. L. Dunham, 125
Analysis of processing time for conjunctive and disjunctive problem solving by N. W. Denney, 197
Conjunctive hypothesis sampling: A reconsideration by I. D. Nahinsky and F. L. Slaymaker, 224

SOCIAL PROCESSES

Negative salience in impressions of character: Sex differences by M. H. Richey and J. D. Dwyer, 77
Negative salience in impressions of character: Effects of extremeness of stimulus information by D. R. Cusumano and M. H. Richey, 81
The effect of defensiveness and anxiety on the ability of four gambling models to predict risk-taking behavior by T. Wilson, 89
Position change in cognitive conflict as a function of the cue-criterion relationship and the initial conflict by D. Druckman, 91
Information effects on cautious and risky-shift items by P. Murdoch, D. G. Myers, and G. F. Smith, 97
Rate of simple motor responding as a function of differential outcomes and the actual and implied presence of a coactor by D. W. Carment, 115
Aggression as a function of vulnerability to attack by R. Merrick and S. P. Taylor, 203
Effects of arousal and credibility on learning and persuasion by C. Hendrick and D. R. Shaffer, 241
Rate of simple motor responding as a function of coaction, sex of the participants, and the presence or absence of the experimenter by D. W. Carment and M. Latchford, 253
The effects of social stimuli on psychophysiological reactivity to an aversive film by D. C. Glass, A. Gordon, and T. Henchy, 255
The effects of dissonance and reward on perceptual distortion by D. R. Yelen, 319
Context effects in impression formation as a function of context source by W. Griffitt and T. Jackson, 321
Analysis of the components of social reinforcement of infant vocalization by A. Schwartz, D. Rosenberg, and Y. Brackbill, 323
Response enhancement in children as a function of blocking at different distances from start and goal by T. Clifford and M. S. Cross, 327
Leadership selection under differing feedback conditions by C. L. Jaffee, S. A. Richards, and G. W. McLaughlin, 349
A paired-comparisons paradigm for investigating person perceptions by I. P. Levin and C. F. Schmidt, 359
Resistance to attitude change as a function of the centrality and relatedness of bonded values by J. D. Edwards, 367

PHYSIOLOGICAL PSYCHOLOGY

BRAIN FUNCTIONS

Control of thermoregulatory behavior by brief displacements of hypothalamic temperature by E. R. Adair, 11

Intracranial self-stimulation in the pigeon: The effects of current intensity by D. M. Webster and I. L. Beale, 15

The effect of training on ECS-induced hyperreactivity to footshock by J. R. Misanin and N. F. Smith, 43

Peripheral shock, implanted electrodes and artifactual interactions: A renewed warning by J. S. Schwartzbaum and J. W. Gustafson, 49

Preoptic temperature during oral and intragastric feeding by R. H. Peters and M. A. Kent, 135

The effects of ECS on ECT: Implications for behavioral research by J. R. Misanin, 159

Specificity of carbachol in the elicitation of drinking by L. R. Beideman and R. Goldstein, 261

Cognitive dysfunction with cardiovascular disease by J. W. McDaniel, 280

Hippocampal afterdischarges and conditioned emotional response by J. D. Barcik, 297

BIOCHEMICAL CORRELATES

Facilitation of learning by injection of brain extracts by G. Chapouthier and A. Ungerer, 10

The relationship of acid-soluble nitrogen in rat brain to avoidance behavior by M. Gold, M. Miller, H. Altschuler, M. H. Kleban, and M. P. Lawton, 13

The relationship of nonprotein nitrogen and total nitrogen in rat brain to avoidance-extinction behavior by M. Gold, M. H. Kleban, H. Altschuler, M. P. Lawton, and M. Miller, 41

HORMONAL EFFECTS

The aggression of male mice against androgenized females by R. A. Mugford and N. W. Nowell, 191

The effect of ACTH administration upon activity-related self-starvation by G. F. Strutt and C. N. Stewart, 301

Effects of ACTH and zinc phosphate vehicle on shuttlebox CAR by K. F. Ley and J. A. Corson, 307

Insulin hypoglycemia and hypothalamic hyperphagia by G. Spies and W. M. Turner, 311

DRUG EFFECTS

The effects of tricyanoaminopropene on learning in a differential reinforcement of low rates situation by D. L. Morse and P. R. Solomon, 3

Effect of atropine dose level on the suppression of water-reinforced VI responding by G. Hines, A. E. Lee, and W. T. Miller, 37

Reserpine and conditioned suppression in the fish *Tilapia h. macrocephala* by W. L. Wilson, J. M. Darcy, and J. V. Haralson, 47

Effects of intraperitoneal injection of ethanol on ethanol ingestion of C57BL mice by G. E. McClearn and D. Nichols, 55

The effect of magnesium pemoline, tricyanoaminopropene, and d-amphetamine on discriminated avoidance performance in rats as a function of age by W. J. Potts, D. L. Morse, B. R. Cooper, and W. C. Black, 141

The effects of adrenergic and cholinergic agents upon eating and drinking in deprived rats by V. P. Houser, 153

Morphine-amphetamine-induced fighting and interim socialization by D. H. Thor and D. L. Hoats, 156

Hydroxyzine and shock in operant behavior of rats by V. Pishkin, E. A. Rasmussen, and C. R. Duke, 175

The effect of puromycin on retention of a positively reinforced response in goldfish by D. A. Kristt, S. J. Freimark, and K. Salzinger, 181

A note on the effects of chlorpromazine upon ulceration in the rat by K. Shemberg, P. C. Green, and J. Gliner, 272

The effects of scopolamine on the extinction of a continuously reinforced response by W. A. McKim, 281

ANIMAL PSYCHOLOGY

The righting reflex in turtles: A description and comparison by V. M. Ashe, 150

Effects of prey movement and background on predatory behavior of chameleons by H. R. Askew, M. Musimeci, L. Sloane, and L. Stephan, 171

Gerbil's pinnae movement as related to stimulus frequency and intensity by R. A. Galosy and L. G. Lippman, 309

MOTIVATION

Temperature effect and strain differences in the nest-building behavior of inbred mice by C.-T. Lee and P. T. P. Wong, 9
Erratum, 266

Open-field behavior of C3H mice: Effect of size and illumination of field by Z. M. Nagy and E. J. Forrest, 19

The effects of vagotomy on the water intake of the white rat by W. B. Vance, 21

The independence of barpressing and schedule-induced drinking by N. Hymowitz, E. X. Freed, and D. Lester, 45

Increased food consumption in thirsty rats after water satiation: Inhibition by salts by H. Lal and J. Zabik, 131

Precedence in feeding and mounting in captive toads by C. Boice and R. Boice, 259

Pattern of daily water consumption in relation to intake of saccharin solution by V. Di Lollo and P. N. Meyer, 265

Lick volume determined by food schedules in rats by A. S. Wilson and J. J. Barboriak, 271

The effect of changes in ambient temperature on water intake and evaporative water loss by P. Budgell, 275

Motivating prairie dogs by R. Boice and J. A. Witter, 287

The effects of open-field size on activity in the Mongolian gerbil by J. Oldham and H. Morlock, 290

Rat activity as a function of water deprivation and age by J. R. Frazier, 299

Consumption of a combined glucose-NaCl solution during normal and food-deprivation conditions by V. C. Cox, 300

Plug fate in the copulatory behavior of rats by D. W. Mosig and D. A. Dewsbury, 315

CONDITIONING

Effect of food deprivation on differential eyelid conditioning in New Zealand White and American Dutch rabbits by P. W. Frey and D. R. Sheldon, 23

Conditioning of the rabbit nictitating membrane response: ISI by ITI interaction by F. W. Mis, J. G. Andrews, and W. R. Salafia, 57

Drinking: Discriminative conditioning in the rat by M. E. P. Seligman, S. Bravman, and R. Radford, 63

Retention of latent inhibition by S. Siegel, 161

The effects of unpaired US presentations on conditioning of the rabbit's nictitating membrane response: Consolidation or contingency by P. Grevert and J. W. Moore, 177

Classical discrimination conditioning and reversal in the albino rabbit by A. L. Yehle, L. E. Spaulding, and H.-Y. Lai, 187

DISCRIMINATION LEARNING

The effects of cue salience and overtraining

on extradimensional shift learning by B. H. Basden, 7
Choice behavior and preexposure: A within-subjects study by J. L. Pate, 36
Discrimination facilitation as a function of differential choice-point delay by C. Eifler and M. Aderman, 59
Interspecific odors as cues for runway behavior by S. F. Davis, W. P. Crutchfield, J. Shaver, and T. Sullivan, 166
Facilitation of an extradimensional shift with overtraining in rats by T. G. Waller, 172
Differences in reversal learning between two inbred mouse strains by M. F. Elias, 179
A comparison of learning based on social or nonsocial discriminative stimuli by V. E. Stimbert, 185
The role of odor in latent extinction by L. K. Pratt and H. W. Ludvigson, 189
Two-cue discrimination learning by pigtail monkeys by R. Weber and M. Kamback, 269
Responses of female rats to the individual body odors of male rats by L. Krames, 274
Interocular transfer of a brightness and of a pattern discrimination in albino and pigmented guinea pigs by K. A. B. Lynch and C. L. Sheridan, 277
The role of motivational and incentive levels in the determination of successive discrimination reversal (SDR) performance of Chukar partridge by R. L. Gossette, S. Birnbaum, and P. Ramsey, 291

AVOIDANCE AND PUNISHMENT

Acquisition of free-operant avoidance with a response-contingent stimulus by J. M. Elliott and T. M. King, 27
Retention of avoidance running by R. S. Beecroft and B. G. Fisher, 28
Conditioning a one-trial passive-avoidance response to a visual or auditory CS by R. P. Gruber, 53
Biphasicity of the incubation curve by F. Robustelli, A. Geller, and M. E. Jarvik, 129
Lever holding and avoidance in the rat, with constant current and constant voltage UCS by P. Grigg, 133
Serial CS presentation and shuttlebox avoidance conditioning: A further look at the tendency to delay responding by D. J. Levis, 145
Serial CS presentation and one-way avoidance conditioning: A noticeable lack of the delay in responding by D. J. Levis, S. A. Bouska, J. B. Eron, and M. D. McIlhon, 147
Conditioned punishment and conditioned negative reinforcement on a multiple schedule by R. S. Davidson, 163
The time course of fear incubation following single-trial passive-avoidance training by J. D. Allen and J. C. Mitcham, 169
Self-punitive locomotor behavior in the Mongolian gerbil by R. C. Martin, E. Ragland, and K. B. Melvin, 183
Shaping of free-operant avoidance in the wood rat, *Neotoma floridana* by R. W. Powell and H. Mantor, Jr., 263
Extinction of free-operant avoidance with and without feedback by A. E. Roberts, L. Greenway, and H. M. B. Hurwitz, 283
Acquisition measures in avoidance learning by G. J. Egger and P. J. Livesey, 285
Shock intensity and unconditioned responding in the gerbil by R. W. Thompson and M. Higbee, 292
Inescapable shocks and subsequent escape/avoidance conditioning in goldfish, *Carassius auratus* by A. M. Padilla, C. Padilla, T. Ketterer, and D. Giacalone, 295
Escape thresholds to electric shock using a conditioned pole-displacement response in rats by G. T. Pryor, 305
Cue properties vs palatability of flavors in avoidance learning by J. Garcia, R. Kovner, and K. F. Green, 313

REINFORCEMENT

The distribution of observing responses during two VI schedules by M. N. Branch, 5
A test of the "ceiling effect" hypothesis of positive contrast by P. E. Campbell, C. M. Crumbaugh, S. B. Knouse, and M. E. Snodgrass, 17
Quantity of reinforcement and fixed-interval performance: Within-subject effects by D. Meltzer and J. A. Brahlek, 30
Positive contrast obtained in the Lashley maze under different drive conditions by M. E. Shanab and H. J. Ferrell, 31
The frustration effect as a function of interoceptive and exteroceptive cues in a Skinner box analogue of the double runway by M. Cole and F. M. Van Fleet, 33
Patterns of responding in second-order chained schedules by D. W. Zimmerman, 137
A note on variability of infrahuman FI performance by B. M. Clarke, R. D. Price, and L. G. Lippman, 139
Behavioral contrast in mixed schedules of reinforcement by J. J. Pear and D. M. Wilkie, 167
Behavioral contrast under multiple delays of reinforcement by J. V. Keller, 257
Sequenced reinforcement in a two-way runway situation by A. H. Wolach, M. Coutts, and M. Aderman, 267

EXTINCTION

Effects of different patterns of reinforcement on performance under massed or spaced extinction by N. J. Mackintosh and L. Little, 1
Interstimulus interval and startle response habituation with a "control" for total time during training by M. Davis, 39
Tests of frustration theory extended to the generalized PRE by W. Waters and P. D. Knott, 61
Reinforcement and response factors in the extinction of conditioned suppression by R. P. Byrum and D. E. Jackson, 143

SOCIAL BEHAVIOR

Some preliminary observations on the behavior of Mongolian gerbils *(Meriones unguiculatus)* under seminatural conditions by G. G. Gallup, Jr., and M. S. Waite, 25
Aggressiveness and learning ability: Effect of histories of wins or defeats on avoidance learning in mice by G. A. Hudgens and D. A. MacNeil, 51
The effect of rearing condition on dominance and emotionality in rats by K. T. Hoyenga and R. K. Lekan, 56
Effect of cage confinement on social behavior in squirrel monkeys by S. J. Tarantino, 294
Successful aggression as the reinforcer for runway behavior of mice by R. Legrand, 303

PERCEPTION & PERFORMANCE

SENSES

Metacontrast: Further evidence for monotonic functions by L. A. Lefton, 85

The effect of efference to the arm on visual adaptation to curvature: A replication by J. W. Gyr and R. Willey, 89

Effects of checkerboard pattern stimulation on evoked cortical responses in relation to check size and visual field by R. G. Eason, C. T. White, and N. Bartlett, 113

Frequency analysis and the critical band by D. R. Soderquist, 117

Some evidence for a visual slant averaging mechanism by W. D. Groman and R. W. Worsham, 221

Individual variation in affective responses to taste stimuli by R. M. Pangborn, 125

The effect of starting pattern on descriptions of perceived temporal patterns by D. Preusser, W. R. Garner, and R. L. Gottwald, 219

Size-distance invariance in perceptual adaptation by S. S. Franklin, H. E. Ross, and G. Weltman, 229

Flash-induced stabilized images by H. J. Michalewski, 237

Cognitive style in the organization and articulation of ambiguous stimuli by S. F. Moore, G. C. Gleser, and J. S. Warm, 243

Rigidity and instructions in relation to two-flash fusion measures by J. E. Tong and D. G. Ground, 355

U-shaped backward masking functions with nonmetacontrast paradigms by D. G. Purcell and A. L. Stewart, 361

PERFORMANCE

The relationship between self-reported pulse rates and exam scores by R. M. Stern and T. L. Bush, 73

The orienting reflex to changes in a conceptual stimulus dimension by R. M. Yaremko, M. W. Blair, and B. T. Leckart, 115

Magnitude of model's apparent pain and ability to aid the model as determinants of observer reaction time by R. A. Baron, 196

Age differences in sequential form recognition by J. S. Girgus and J. Hochberg, 211

Probability and expectancy in two-choice reaction time by J. V. Hinrichs, 227

Recency/primacy ratio: A short test of task orientation by P. Hamilton and G. R. J. Hockey, 253

Simple reaction time, statistical decision theory, and the speed-slowness tradeoff by L. Henderson, 323

Rating the speed of a simple reaction by A. J. Sanford, 333

ATTENTION & SEARCH

Selective attention and individual preferences in judgmental responses to multifeature patterns by C. M. Mavrides, 67

Acoustic vigilance behavior in four-year-old children by J. L. Locke, 111

Perceptual search time as a function of association value with practice effects controlled by E. H. Davidson and C. L. Robertson, 317

The limits of selective attention in DAF shadowing by D. O. Robinson, 325

Information processing and strategy by M. A. Peterson and R. Peterson, 365

PSYCHOPHYSICS

Interval estimation as a function of constant and interrupted stimulation by G. Long and S. Mo, 87

The effect of anchoring upon pain threshold by D. R. Haslam, 107

A TSD determination of a DL using two-point tactual stimuli applied to the back by W. N. Boyer, H. A. Cross, G. W. Guyot, and D. M. Washington, 195

Determination of a DL using two-point tactual stimuli: A signal-detection approach by H. A. Cross, W. N. Boyer, and G. W. Guyot, 198

An investigation into changes in decision criteria and other details of a decision-making task by M. Hammerton, 203

Magnitude estimation of anxiety by R. Sullivan, 209

Scaling apparent distance in a natural outdoor setting by R. Teghtsoonian and M. Teghtsoonian, 215

HUMAN LEARNING & THINKING

CONDITIONING

Acquisition variables in human avoidance behavior by F. D. Miller, R. S. Kalin, W. N. Eckenroth, and P. A. Meyer, 233

The effects of temporal variables on the acquisition of human avoidance behavior by F. D. Miller, R. S. Kalin, and P. A. Meyer, 241

Effects of instruction and interstimulus interval in human GSR conditioning by R. P. Swenson and F. A. Hill, 369

REINFORCEMENT

Magnitude of incentive contrast as a function of amount of verbal reward change by L. Weinstein, 65

Increase in incentive amount with verbal reinforcement by L. Weinstein and V. M. Colucci, 83

Reinforcement of verbal behavior by evaluative meaning words by C. F. Etaugh, R. J. Kelliher, and R. B. Stalling, 327

DISCRIMINATION LEARNING

Schema learning with low redundancy patterns by E. C. Jones, 74

Observation vs performance in learning over the fourth to sixth grades by M. H. Marx and K. Marx, 199

Discrimination and conservation of length by J. F. Christie and D. W. Smothergill, 336

Effectiveness of different verbal reinforcement combinations on a discrimination-reversal problem in children by G. H. Moffat and J. P. Motiff, 351

VERBAL LEARNING

Effects of familiarization, associative reaction time, and meaningfulness of response terms in forward and backward paired-associate learning by R. Ley and D. Locascio, 97

Serial task structure and the doctrine of remote associations by N. C. Ellis, 121

On the trace strength of responses varying in correctness by A. J. Wearing, 226

Confidence ratings in continuous paired-associate learning by H. A. Bernbach and G. H. Bower, 252

Prediction of paired-associate learning from a complex indicator of associative strength by M. Linton, M. Jewett, and S. J. Brotsky, 354

Degrees of isolation and the Von Restorff effect in serial learning by I.-N. Huang and L. J. Hynum, 357

Effects of item discriminability in mixed-list presentation of paired associates by G. J. Johnson, 371

MEMORY

The isolation effect and mechanisms in short- and long-term memory by R. S. Cimbalo and K. C. Pelonero, 69

Subjective organization and free recall: Performance of high, moderate, and low organizers by S. I. Shapiro and J. A. Bell, 71

The effect of two types of associative linkage and position of association linkage on the recall of sentences by J. W. Gallagher and W. Patterson, 75

The commonality of subjective organization in free recall by S. I. Shapiro, 81

XUM

Type of instruction, abstractness, and mnemonic system by G. Wood and M. Bolt, 91
Recognition memory for words presented at a slow or rapid rate by A. I. Schulman and E. A. Lovelace, 99
Transfer effects in part to whole free-recall learning by J. R. Whitman and E. P. Anderson, 109
The influence of vocalization activity on short-term recall by P. M. Tell and B. X. Voss, 120
The effect of duration of item exposure on recall in a short-term memory paradigm by L. Miller, 123
Differences between retrieval cues in effectiveness as recall aids by J. Loeb, 193
Interhemispheric transfer of test stimulus representations in memory scanning by R. L. Klatzky, 201
Recall load in STM by G. E. Stelmach and J. R. Bruce, 205
Reaction time and short-term visual memory by W. A. Phillips and A. D. Baddeley, 223
Comment on "Initial-recall grouping in free-recall learning," by John A. Robinson by I. M. Birnbaum, 225
Reply to Birnbaum by J. A. Robinson, 225
TSD and coding in STM by J. M. Ackroff and R. O. Rouse, Jr., 231
Retrieval of words from subordinate and superordinate categories in semantic hierarchies by E. F. Loftus, J. L. Freedman, and G. R. Loftus, 235
The verbal loop hypothesis as a predictor of individual differences in short-term recall of tachistoscopically presented binary numbers by R. Udolf, 245
Recognition reaction time and size of the memory set: A developmental study by K. L. Hoving, R. E. Morin, and D. S. Konick, 247
The role of familiarity and orientation in immediate and delayed recognition of pictorial stimuli by K. F. Scapinello and A. D. Yarmey, 329
Memory and conservation by F. B. Murray and R. B. Bausell, 334
"No-show" phenomena in free recall by R. M. Weist, 366
Repetition effects in short-term memory by A. L. Irion, J. J. Boswell, and J. T. Walker, 367

VERBAL PROCESSES

Mediated responding on a multiple-choice test-only list following the acquisition of a double-function list by K. L. Norman, I. P. Levin, and J. R. Williams, 77
An information-theory measurement of CVC trigram meaningfulness by K. B. Taylor, 101
Word recognition as a function of spelling direction during study and test by G. Cermak, J. Schnorr, and H. Buschke, 127
Development of comprehension of logical connectives: Understanding of "or" by E. D. Neimark, 217
What is vividness? by E. P. Kirchner, 239
Homophones as ambiguous stimuli in research: A comparison of the associative meaning of homophones and nonhomophones by R. Foote, 249
Word associations of bilinguals by E. C. Dalrymple-Alford and A. Aamiry, 319
Part-whole transfer of a categorizable word list by R. L. Hudson and J. L. Davis, 331

PROBLEM SOLVING

Effects of proportion of positive instances and degree of restriction on the induction of a principle by D. Dervin and K. Deffenbacher, 79
Erratum, 324.
Attribute learning in preschool children: Mediation and selection mechanisms by S. Dick and J. S. Landau, 105
Extinction for systems learning by A. Miller and R. McCrimmon, 207
Effects of adherence to generation rules on conceptual judgments by C. T. Bersted and S. H. Evans, 255

SOCIAL PROCESSES

The high cost of reward in task productivity by K. Stuart and G. A. Haaland, 93
The effects of varying the number of conditioned leaders on group problem solving by S. L. Cohen and C. L. Jaffee, 95
Transgression, fate control, and compliant behavior by D. L. McMillen, 103
Effects of task orientation and level of prior agreement on willingness to agree by J. W. Julian and R. K. Kimball, 213
The veridicality of subjective estimates of relative risk by C. H. Castore, T. A. Goodrich, and K. Peterson, 321
The effect on interpersonal attraction of successive and simultaneous presentation of strangers by C. Gouaux and J. Lamberth, 337
Racial meaning with a mediated generalization procedure by N. H. Hamm, W. L. Johnson, and P. S. Mullaney, 359
Self-esteem and balance with impersonal attitude objects by W. P. Archibald, 363

Contents of Volume 21

Section on Animal and Physiological Psychology

PHYSIOLOGICAL PSYCHOLOGY

Hippocampal electrical activity during hypothalamic-evoked consummatory behavior in rats by F. J. Pond, T. I. Lidsky, M. S. Levine, and J. S. Schwartzbaum, 21

The effects of hippocampal and cortical lesions on single-alternation go, no-go acquisition in rats by D. W. Walker, L. W. Means, and R. L. Isaacson, 29

Hypothalamic hyperphagia: Loss of weight through voluntary exercise by G. Spies, 257

ELECTROCONVULSIVE SHOCK

The effect of posttrial ECS and footshock on the acquisition of a nonshock passive-avoidance response by R. W. Thompson, R. A. Galosy, and G. W. Morlock, 3

Effect of ECS on one-trial learning following continuous- and partial-reinforcement training by A. G. Young and E. H. Galluscio, 43

ECS effects following continuous and partial reinforcement training by A. G. Young and H. D. Day, 130

HORMONAL EFFECTS

Effects of a single insulin injection on approaches to food and on the temporal pattern of feeding by D. A. Booth and J. F. Pain, 17

Recent mating experience and olfactory preferences in androgenized female rats by R. T. Robertson and R. E. Whalen, 266

Thyroidectomy produced abnormal grooming behavior in cats by W. Randall and V. Parsons, 268

The behavior of clouds correlates with thyroid activity in cats by W. Randall, 270

DRUG EFFECTS

Memory enhancement of a partly-learned discrimination in pigeons by intramuscular injection of physostigmine by G. B. Biederman, 33

Strain differences in morphine-withdrawal-induced aggression in rats by L. A. Borgen, J. H. Khalsa, W. T. King, and W. M. Davis, 35

Injections of neurohumors in the cat thalamus and visual discrimination performance by D. D. Avery and D. M. Nance, 143

Scopolamine's effect on passive avoidance by W. H. Calhoun, A. A. Smith, and R. Bauer, 165

Effects of LSD on auditory generalization by L. A. Dykstra and J. B. Appel, 272

Effects of agroclavine on wheel-turning activity in mice by W. L. Witters and C. W. Foley, 175

Time-dependent learning deficit caused by hydroxylamine by S. Reinis, 179

ANIMAL PSYCHOLOGY

Light deprivation and visual-cliff performance in the adult cat by G. Jones and R. Pasnak, 278

MOTIVATION

Effect of food deprivation upon elation of saccharin drinking following a temporary shift to water by A. B. Ashton, R. Gandelman, and J. A. Trowill, 5

Responses to palatability shifts: Effects of varying the retention level by R. Dube, A. B. Ashton, and J. A. Trowill, 10

Effects of social isolation until adulthood on maternal behavior in guinea pigs by J. J. Stern and B. M. Hoffman, 15

Effects of ingesting nonnutritive sweet substances on subsequent sucrose consumption by E. C. Jones, 23

Flavor preferences in laboratory rats by F. P. Valle, 31

Peeping in chicks as a function of environmental change by C. Fullerton, J. C. Berryman, and W. Sluckin, 39

Effects of deprivation on the tongue flicking and orientation of young rat snakes to water by M. S. Loop, 49

Satiation of mouse killing by rats in an operant situation by P. E. Van Hemel and J. S. Myer, 129

Saccharin and saccharin-glucose ingestion in two inbred strains of *Mus musculus* by P. J. Capretta, 133

Control of schedule-induced drink durations by interpellet intervals by V. A. Colotla, J. D. Keehn, and L. L. Gardner, 137

The behavior of rats during copulation as a function of prior copulatory experience by D. W. Mosig and D. A. Dewsbury, 141

Prediction and control of schedule-induced drink durations by J. D. Keehn and V. A. Colotla, 147

The immobility reaction in leopard frogs *(Rana pipiens)* as a function of noise-induced fear by R. F. Nash, G. G. Gallup, Jr., and M. K. McClure, 155

Effects of litter size on nursing time and weight of the young in guinea pigs by J. J. Stern and G. Bronner, 171

The effects of feeding experience on the response to prey-object extracts in rat snakes by M. S. Loop, 189

Cage activity in cottontail rabbits by D. M. Cone and A. L. Cone, 259

An expression of body weight regulation in feeding behavior by D. A. Booth, 299

Prey selection in naive *Elaphe obsoleta* (Squamata: serpentes)—A reappraisal by H. W. Campbell, 304

Sex differences in obesity and food-directed activity in normal and hyperphagic rats by D. Singh, 310

LEARNING

An effect of flavors on strength of conditioned aversions by K. F. Green and P. A. Churchill, 19

A correlational study of pre- and postgoal competing responses by E. C. Jones, 25

Positive induction at different sections of the performance chain by R. V. Krane and J. R. Ison, 37

Visual factors in observational learning with rats by R. W. Powell and R. Burns, 47

Age differences in the development of the conditioned emotional response by R. L. Brunner, T. G. Roth, and R. R. Rossi, 135

Repeated acquisition as a behavioral baseline by D. M. Thompson, 156

Cross-modal reversal in the rabbit by J. P. Ward and A. L. Yehle, 261

The classically conditioned nictitating membrane response: The CS-US interval function with one trial per day by C. F. Levinthal and J. D. Papsdorf, 300

Generalization gradients around S^{Δ} following errorless discrimination learning by D. F. Johnson and W. H. Anderson, 302

Reversal learning in birds as a function of amount of overtraining by K. A. Matyniak and L. J. Stettner, 312

AVOIDANCE AND PUNISHMENT

Effects of some stimulus probes upon negatively accelerated conditioned suppression responding by J. B. Carman, 13

The effects of amount of signaled escape training on subsequent avoidance learning by F. R. Brush, 51

Punishing effects of long delays of reinforcement with shock-escape behavior by L. J. Hammond and J. V. Lambert, 63

The secondary positive reinforcing properties of the cue in "automated" discriminated escape conditioning by D. G. Davenport, 149

Double-intermittent reward scheduling and secondary-reinforcer strength: Discriminated escape by D. G. Davenport and A. J. Eschenbrenner, 151

The effect of disconfirming an expectancy

of time-out from shock in the double runway by J. V. Lambert, 153
Atypical effects of electroshock on emotionality in rats by M. E. Hahn, B. J. Morrison, E. C. Simmel and C. J. Harris, 159
Self-punitive behavior with a distinctively marked punishment zone by J. S. Brown, 161
Facilitation of shuttle avoidance by handling by P. F. Spelt, 164
The buzzer as a primary aversive stimulus: I. Unconditioned acceleration and summation of conditioned and unconditioned acceleration by D. Riess, 167
Age- and sex-related differences in acquisition of a long-term active avoidance response in mice by R. G. Rahwan and A. S. Kulkarni, 170
Effect of patterns of shock and nonshock training trials on response alternation and extinction in escape training by J. J. Franchina and C. R. Snyder, 177
Changes in preference for cage environments following habituation and shock in the Mongolian gerbil by H. J. Ginsburg and W. G. Braud, 183
Secondary self-punitive behavior: Effects of periodic punishment of Sidman avoidance by a Pavlovian CS+ by D. Riess, 185
Effects of a Pavlovian conditioned fear stimulus on avoidance performance attenuated by experimental extinction by D. K. Kamano, 187
Between-groups incentive effects on conditioned suppression by J. J. B. Ayres and V. L. Quinsey, 298
The buzzer as a primary aversive stimulus: II. Unavoidable buzzer presentations and conditioned acceleration by D. Riess, 306
Shock-avoidance and shock-escape drinking in rats: Rate of licking by M. L. J. Crawford, 308
Effects of a punitive noise on self-punitive running established with shock by J. P. Rollings and K. B. Melvin, 317
Motivation-performance relationships using different shock-avoidance shuttlebox techniques by N. D. Henderson, 318

REINFORCEMENT

Influence of deprivation on the frustration effect by W. P. Dunlap and S. B. Frates, 1
Effects of reinforcement shifts upon subsequent sucrose consumption by A. Ashton, R. J. Gandelman, and J. A. Trowill, 7
Effects of reinforcement shifts upon lick rate by A. B. Ashton and J. A. Trowill, 8
Nesting material as a reinforcement for operant behavior in the rat by N. N. Oley and B. M. Slotnick, 41
Postreinforcement delay training effect on runway speed patterning by T. B. Posey and D. C. Cogan, 45
Second-order fixed-ratio schedules by D. E. Blackman, G. V. Thomas, and N. W. Bond, 53
Frustration effects after varied numbers of partial and continuous reinforcements: Incentive differences as a function of reinforcement percentage by J. J. Hug, 57
Number of food pellets and the development of the frustration effect by J. J. Hug, 59
Frustration effect after development of patterned responding to single-alternation reinforcement by J. J. Hug, 61
Runway performance and reward magnitude by E. L. Wike and J.-S. Chen, 139
An instrumental partial reinforcement effect in the absence of any overt instrumental acquisition training by E. J. Capaldi, E. D. Capaldi, and K. Kassover, 145
Extinction following the differential control of a conditioned positive reinforcer by D. W. Thompson and M. Aderman, 158
Rates of concurrent responses and reinforcer duration by S. F. Walker, J. Schnelle, and H. M. B. Hurwitz, 173
Inhibition and disinhibition of an operant response as a function of the amount and type of prior training by C. J. Brimer, 191
Effects of shifts in magnitude and delay of reward upon runway performance in the rat by M. E. Shanab and S. McCuistion, 264
Extinction as a function of varied quality and quantity of reward sequence in a straight alley by R. Russin, W. N. Boyer, and H. A. Cross, 274
Negative incentive contrast effects with saccharin vs sucrose and partial reinforcement by L. Weinstein, 276

SOCIAL BEHAVIOR

Behavior of electric fish *(Gymnotus carapo)* in a group membership experiment by H. O. Box and G. W. M. Westby, 27
The effects of delayed presentation of the object of aggression on pain-induced fighting by H. L. Roediger III and M. C. Stevens, 55
Prediction of dominance in social groups of the electric fish, *Gymnotus carapo* by G. W. M. Westby and H. O. Box, 181
Cues eliciting social approach in male albino rats by M. G. King and J. K. Dua, 258
Social inhibition of territorial markings in the Mongolian gerbil *(Meriones unguiculatus)* by J. Nyby, D. D. Thiessen, and P. Wallace, 314
Dependence on smell of social and overpopulation effects in the white rat by B. J. Morrison, H. Forman, C. Harris, and J. Hogan, 320
